

TYRESHINE

TIRE POLISH

DISCRIPTION

TYRE SHINE contains a specially developed silicone-free formula and has been specially developed to leave a long-lasting and water-resistant satin gloss on any desired rubber band, vinyl and/or plastic surface.

CHARACTERISTICS

- Silicon-free formula.
- Long lasting effect.
- High gloss.
- Wet look.
- Economical in use.

APPLICATION

Clean the desired surface before use. Apply TYRE SHINE to a clean dry sponge or spray the product directly onto the desired surface. For an optimal satin gloss rub the treated surface with a clean soft cloth.

For optimum results, use the RMC TYRE APPLICATOR (tyre sponge).

Contents: 12 x 500 ml/carton
