

## ECO POWER

### PROFESSIONAL BIOLOGICAL CLEANER

#### DESCRIPTION

ECO POWER is a concentrated, liquid deep cleaning product with a particularly high percentage of active ingredients. Removes quickly, thoroughly and very effectively. It is ideally suited for garage environments and related industrial environments. But also for the food industry and kitchens (hotels and restaurants). Has a deep cleaning and degreasing of animal/vegetable fats and surfaces contaminated with oils or atmospheric contaminants. Can also be used for the removal of e.g. ink residues. Due to the high concentration, the product is economical to use and low foaming. The product is non-flammable and has no disturbing influence on the processing of oil/fat separators.

#### CHARACTERISTICS

- Quickly and thoroughly removes animal/vegetable fats and oils.
- Also removes old oil stains and large amounts of grease and oil.
- Ideal for scrubber/dryers.
- Low foaming.
- Also suitable for manual cleaning / jokers and for single-disc machines.
- Odourless without perfume.
- Colourless.
- Fully biodegradable

#### INSTRUCTION MANUAL

1. Apply the product to the surface to be cleaned.
2. Use a soft sponge, cloth or brush and rub the deep cleaner on the surface to be cleaned.
3. Excess residues (deposits) can easily be removed with clean water.

#### TIPS

- Warm water up to 60 degrees promotes the dirt-solving power of Eco Power.

Contents: 12 x 1 litre/carton
